

Complete service for frequency converters

Support for components that are susceptible to faults

Since about 25 percent of all the downtimes of a wind energy system are linked to converter faults, we pay special attention to this component. We offer all kinds of services from inspection to repair. Our experts have been providing frequency converter service since 2002.

Our own stock of spares in the psm-central warehouse and service contracts with manufacturers ensure quick availability of the components and quick onsite deployment.

Our services at a glance:

- Maintaining the converter as per the manufacturer specifications
- Remote fault analysis for optimised maintenance visit
- Repairs
- Software updates
- Service for: Woodward SEG, Alstom/Converteam, Weier
- Documentation
