

# Photovoltaic system

*From the modules to inverters till the feed point*

For us, comprehensive support of photovoltaic systems, implies ensuring that your PV system remains in top form. We are always close to the action in Germany and Southern Europe and can intervene immediately if required. This reduces the costs and optimises the revenues.

To ensure that our service works optimally, we have the latest equipment for measuring the characteristics and very well trained specialists. In the area of inverter maintenance, we cooperate with leading manufacturers and are authorised to undertake circuitry up to 30 kV.

## Our services at a glance:

- 24 hours remote monitoring
- Data acquisition & analysis
- Inspection / fault rectification
- Scheduled maintenance and repair work
- Optimisation of installation engineering
- Reports
- Thermography
- Line measurement
