

Technical management

More than „remote diagnostics“

We provide all the services required for operating your systems smoothly. In addition to the technical inspections we also order repair by service technicians, coordinate maintenance and repair work as well as troubleshooting. Our operational management always keeps track of the happenings and can initiate corrective action immediately.

Our services at a glance:

- 24 hours / 365 days remote monitoring
- Complete maintenance history
 - Status documentation
 - Analysis of operating data
- Schedule management
 - We keep an eye on all the periodic inspection dates for you.
- Organisation of troubleshooting
 - Short response times
 - Immediately initiating fault rectification
- Qualified technical support
- Spare parts stocks
 - psm warehouse with extensive stock of spare parts
 - Management of the spare part stocks of our customers
- Inspections
- Expert opinions and status analysis
